Subject: RE: Draft of reasonable options, 12.15.16

Thanks Jenny. Truly appreciated your taking the lead on this. Great job!

Finally caught up with Allison this morning and we shared information. Also emailed the draft, as the email address used was incorrect (should be first name.last name@noaa.gov)

Subject: Draft of reasonable options, 12.15.16

Hi Everyone,

Here's a draft copy of the "reasonable options" paper. Jayne thought it would be good for us to discuss in the tech call meeting. You'll see this is still in early draft form and needs editing. You're probably both aware of the timing of what's happening this week.

Don and Allison, please check out if you're comfortable with what we're saying about what is reasonable without worrying about the editing part. We're tasked with coming up with enough for EPA and NOAA to ask the State if they can deliver, but we know the devil is in the details. JB, we're looking to you to help fill in the enforceable mechanism piece that you talked about at the last RA briefing.

Jayne, note that I took most of your comments, but kept in the general guidelines for CZARA approval under each section. I can easily take out, but the idea was that each subject could be a stand-alone paper. My thought was that breaking down each subject into 2-pagers was more digestible for negotiations among Dennis, Will and the State. I left them all as one attachment for ease of reading and would need to renumber/reformat.

Thanks!
Jenny
